

SUSAN KHATRI

Flutter Developer Intern | Mobile Application Developer

Sindhupalchok, Nepal | +977 9863322840 | susankhatri8323@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Bachelor of Information Technology (BIT) student with hands-on experience building Flutter applications using Dart, Firebase Authentication, and Cloud Firestore. Has developed and published multiple Flutter projects on GitHub, including a Firebase-backed to-do app, a REST API-integrated weather app, and a BMI calculator. Comfortable with core Flutter concepts including widget lifecycle, state management, and navigation. Seeking a Flutter Developer Internship to apply existing skills on real-world projects and grow within a professional development team.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Android (Flutter-based), Responsive UI, Material Design

Backend & Database: Firebase Authentication, Cloud Firestore, REST API Integration, JSON

Programming Languages: Dart, C, Java (basics), Python (basics)

Web Development: HTML, CSS

Tools & Version Control: Android Studio, VS Code, Git, GitHub

Core Concepts: OOP (Inheritance, Widget Extension), Widget Lifecycle (initState), StatefulWidget/StatelessWidget, Navigation, Forms, State Management, Debugging

Design: UI/UX Implementation, Adobe Photoshop, Affinity Design

AI Tools: ChatGPT, Google Gemini, Canva (AI-assisted design), AI-assisted UI/UX ideation

PROJECTS

DailyFlow — To-Do List App — *Flutter, Firebase Authentication, Cloud Firestore*

- Built a task management app that lets users sign up and log in securely using Firebase Authentication.
- Integrated Cloud Firestore to store, update, and sync tasks in real time.
- Implemented task completion tracking, allowing users to see how many tasks are completed versus remaining.
- Structured the app using StatefulWidget lifecycle methods and OOP principles for maintainable, reusable widgets.

GitHub: <https://github.com/Susan4191/DailyFlow-todolist>

Weather App — *Flutter, OpenWeatherMap REST API*

- Developed a weather application that fetches and displays live weather data using the OpenWeatherMap REST API.
- Implemented city search, allowing users to look up current weather conditions for any location.
- Parsed and rendered JSON API responses within a responsive Flutter UI.

GitHub: <https://github.com/Susan4191/Weather-App>

BMI Calculator — *Flutter, Dart*

- Built a BMI calculator with a splash screen and input flow for age, gender, height, and weight.
- Implemented BMI calculation logic in Dart with real-time category classification (underweight, normal, overweight) and accompanying health suggestions.
- Designed a clean, responsive input and results UI using Flutter widgets.

GitHub: <https://github.com/Susan4191/Bmi-Calculator>

Other Projects (Web Development) — *HTML, CSS*

- Personal Portfolio Website — built and hosted a personal portfolio site at khatrisusan.com.np to showcase projects and skills.
- Dental Clinic Website — built a static clinic information website using HTML and CSS.

EDUCATION

Bachelor of Information Technology (BIT) | Texas College of Management, Sifal, Kathmandu, Nepal 2023 – 2026 (Expected)

Currently in 6th semester.

CERTIFICATIONS / TRAINING

- Flutter Development Course — SkillShikshya, Sankhamul, Kathmandu (Completed)

EXPERIENCE

Junior Graphic Designer | Siddhartha Fine Art October 2021 – May 2023

- Created graphic design assets and layouts using Adobe Photoshop and Affinity Design.
- Collaborated on visual design projects, developing an eye for clean, user-focused visual presentation applicable to UI/UX work.

Freelance Graphic Designer (AI-assisted) | Self-employed 2023 – Present

- Designed product labels, collages, and hand-carry bag designs for clients using Canva, with ChatGPT and Google Gemini for concept ideation; also applied these AI tools to support UI/UX design while building Flutter apps.

LANGUAGES

Nepali (Native), English (Professional Proficiency), Hindi (Professional Proficiency)
